

InstaGreen® GT-4 Tray

A SIKA COMPANY

GENERAL DESCRIPTION

The InstaGreen GT-4 Tray is a completely self contained, pre-vegetated module containing lightweight growing media and plants. The InstaGreen GT-4 Tray incorporates a reservoir based designed for optimum water storage below the media. The tray sidewalls have a clip and slot to attach the modules together and are perforated to facilitate tray to tray root growth as well as sharing of water and nutrients.

BASIC USE

To create an instant green, pre-vegetated Garden Roof® in a modular, self-contained format.

INSTALLATION

- Refer to Hydrotech's Garden Roof Installation Guidelines for specific installation instructions.
- Refer to Hydrotech's Guide Details for additional information on technical requirements.
- Trays can be shipped empty and filled with media and vegetated on-site (contact Hydrotech for further information)
