

GENERAL DESCRIPTION

Root Stop Tape is a white, single-sided tape combining a weather-resistant polyethylene backing with an aggressive rubber adhesive.

BASIC USE

Root Stop Tape is designed to be used in Hydrotech's Garden Roof® Assembly to seal the laps between sheets of Hydrotech's Root Stop, Root Stop HD, and Root Stop Bamboo, root barrier membranes.

Before application, the Root Stop membranes must be dry and clean of all potential contaminants in the areas where the Root Stop Tape will be applied.

In ambient temperatures below 50°F, Root Stop Tape should be stored at room temperature just prior to use.

TECHNICAL SPECIFICATIONS

Root Stop Tape is available in rolls 4 inches (101.6 mm) wide by 210 feet (64 m) long.

PROPERTY	VALUE
THICKNESS mils (mm)	9 (0.23)
ADHESIVE STRENGTH oz/inch (g/mm)	30 (33.5)
SERVICE TEMPERATURE °F (°C)	-40 to +180 (-40 to 82.2)
