

GENERAL DESCRIPTION

Hydroflex 30 is a specially formulated heavy duty, rubberized asphalt, protection sheet with synthetic fiber reinforcement.

BASIC USE

Hydroflex 30 is specifically designed to be embedded into Hydrotech's Monolithic Membrane 6125 roofing and waterproofing membranes to provide protection from typical construction traffic. In high traffic areas where vehicular traffic is anticipated or extreme physical abuse is expected, additional protection may also be required for the membrane assembly.

SIZES

Hydroflex 30 is available in roll form, with a width of 39.4 inches (1.0 m) and a length of 66 feet (20 m) (Midwest and Eastern U.S.) and a length of 50.25 feet (15.3 m) (Western U.S.). The rolls equal approximately 216 square feet (18.6 sq.m.) and 165 square feet (15.3 sq.m.) of material respectively.

TECHNICAL SPECIFICATIONS

Thickness: .085 inch; \pm .005 (85 mils, 2 mm)

Color: Black (with light broadcast of sand)
